## SOME RESULTS OF THE WORK OF UNMAS COLOMBIA \*\*

45 municipalities developed or updated referral pathways for victims with technical assistance from UNMAS.

75 members of mine action organizations trained in humanitarian demining tasks (NTS & TS), in coordination with the OACP.

30 forms with information on the location of explosive ordnance installed during the armed conflict provided by FARC ex-combatants, in compliance with the Peace Agreement.

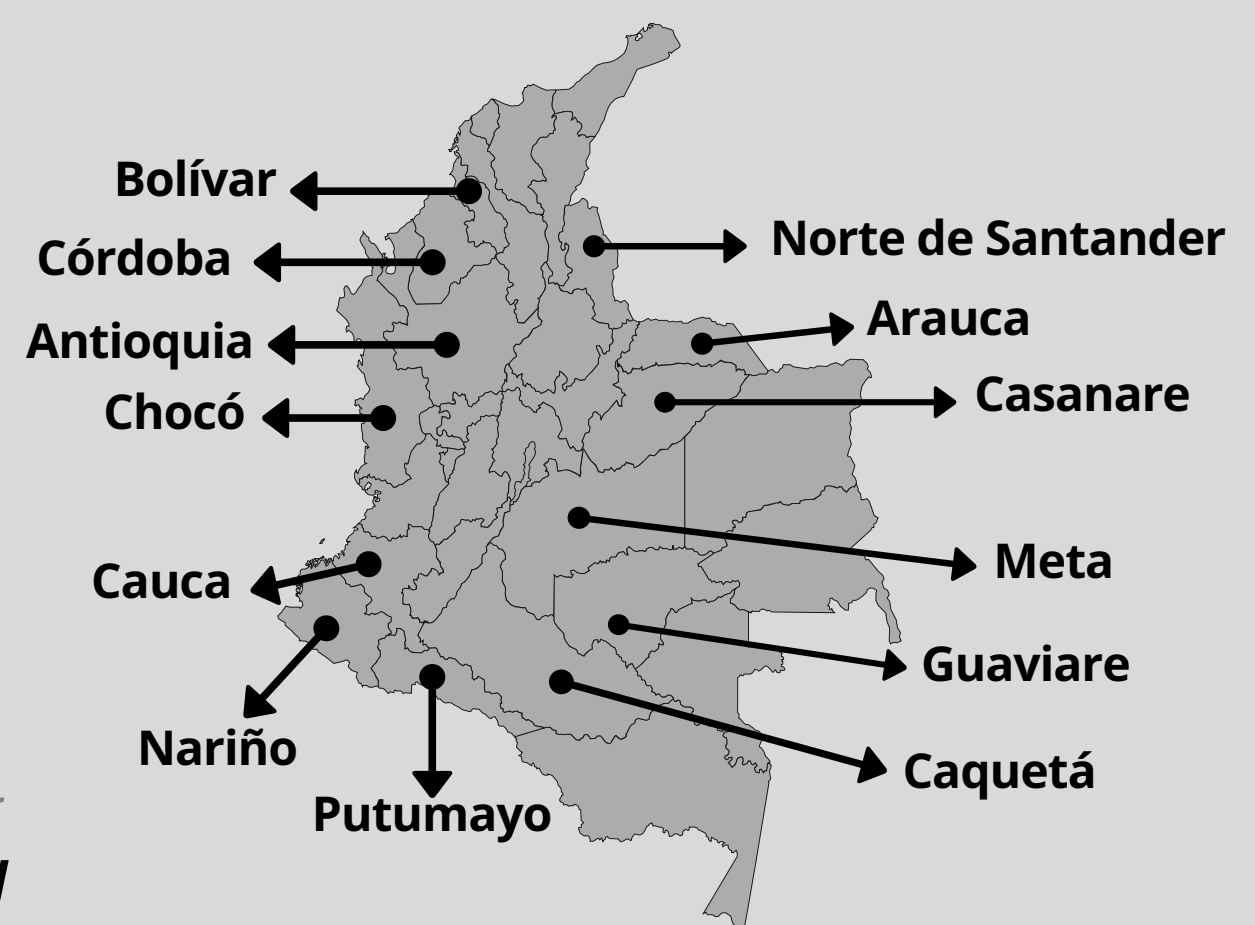

More than 19,000 m<sup>2</sup> cleared by humanitarian demining work and 4,420 beneficiaries of EORE workshops carried out by ex-combatants, belonging to HUMANICEMOS DH.

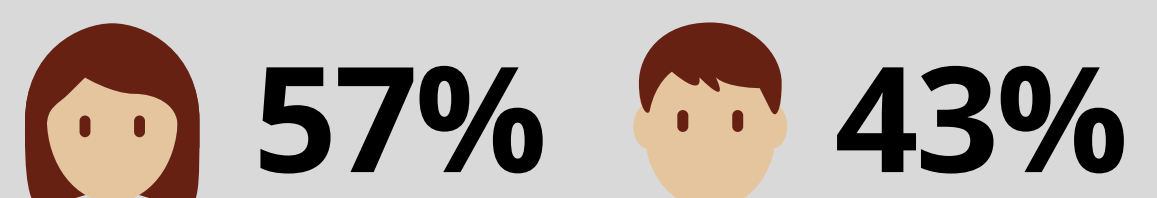

4,657 beneficiaries of 289 Explosive Ordnance Risk Education workshops in Arauca, Antioquia, Córdoba, Chocó, Nariño, Norte de Santander and Putumayo.
